

Exciting, space saving alternative to traditional Roulette.

Played using a 20-sided dice instead of a wheel, Roulette18 is a fast and new table game that uses a unique table layout that does not require a roulette-sized table.

The objective of this space-saving game is simple. Players place their bets on the Roulette18 layout – which is similar to a Roulette layout, but smaller – and a red & black numbered dice (numbered from 1-18, plus a green '0' and a '00') is rolled in a shaker before being exposed. According to the bets placed and the number rolled, the Dealer then pays winning bets.

Like traditional Roulette, players can place straight-up, split, street, corner or line bets. They may also choose to bet on numbers of one colour, numbers that are odd or even and numbers '1-9' or '10-18'. In this game, the double zero is ignored.

Features ↓

- Played on a much smaller table than traditional Roulette.
- Easy to learn for both the players and Dealers.
- Same House Advantage as a Double-Zero Roulette Wheel
- More cost effective than traditional Roulette
- Increased game speed – faster than traditional Roulette!
- Offers a simple, yet exciting, proposition bet feature for further increased revenue.

Benefits

Double-Hit Roulette18

For added excitement, casino operators may choose to include the Double-Hit betting section on their Roulette18 layout. The Double-Hit straight-up bet is a proposition bet based on two consecutive rolls of the dice.

The player places a bet on a single number in the Double-Hit section of the layout. If the player hits his number on the first roll, he's paid 12-to-1 and the bet remains in play for a second roll. If the player then hits his number on the second roll, he's paid 120-to-1 and the original bet is returned.

Game Play ↓

The rules of Roulette18 are simple for both the player and the Dealer:

1. Players place their bets on the Roulette18 layout – just as they would in ordinary Roulette.
2. The Roulette-die is rolled in a shaker and then exposed. If the roll is a double-zero (00) all bets remain in action and the die is rolled again until a non-00 winning number is determined.
3. The Dealer collects all losing bets and pays winning bets according to the pay table (pg 2).

Players win Roulette18, exactly as they would traditional Roulette.

Easy & Fast for Dealers to Learn

Roulette18 requires no specialist Dealer training or additional staff in order to operate; this ensures a quick and easy transition at no extra cost. In trials, its simple and straightforward rules enabled casino Roulette Dealers to pick up and understand the game immediately.

Fast ROI & Improved Game Hold %

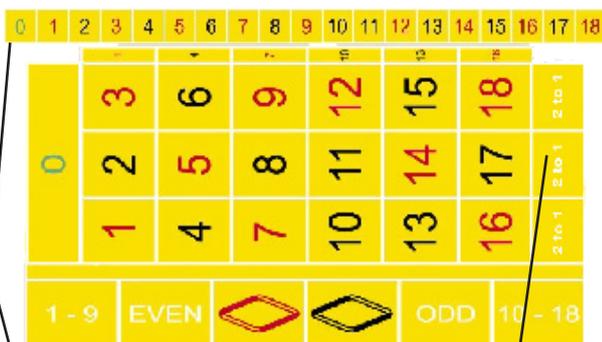

With less numbers on the table and no ball spinning to wait for, Roulette18 is played much faster than traditional Roulette. This increase in game speed attributes to an improved game hold percentage and a faster return on investment, as players are drawn into the excitement.

Cost Effective

Unlike many other table games, Roulette18 requires no additional hardware or software in order to operate. The only items required are a 20-sided dice and a dice shaker.

Roulette Layout

Choose to include the Double-Hit proposition bet section, or not; both options are included in the price.

Double-Hit Betting Section
Available as an option for the table layout.

Roulette18 Playing Area
Includes 18 numbers along with other betting options such as 1-9, 10-18, odd/even, red/black and 0.

Roulette18 Pay Table

Bet Type	#'s Covered	Payout	House Edge

Odd/Even	9	Even (lose 1/2 on 0)	2.63%
Red/Black	9	Even (lose 1/2 on 0)	2.63%

Q&A

Question	Answer
How does the game speed compare to traditional Roulette?	The game speed is quicker than traditional Roulette as there is less time spent betting (less numbers to select from) and there is no ball spinning to wait for.
Will Game Hold % improve with Roulette18?	Yes. Because of the increase in game speed, Roulette18 will hold slightly higher than traditional Roulette.
Is the game easy to play?	Yes. Players pick up the game very quickly, which is very attractive to both new and seasoned casino-goers.
Is the game easy to deal?	Yes. In trials with casino Roulette dealers, Roulette18 was picked up and understood immediately.
What is the house advantage of Roulette18?	Inside bets = 5.26% Outside bets = 2.63%
