

# HOW TO PLAY

TCSJOHNHUXLEY

A fast, new spin on traditional Roulette; without any expensive equipment!

**Played using a 20-sided dice instead of a wheel, Roulette18 is a fast and easy casino game that uses a unique layout.**

The object of the game is simple. Players place their bets on the Roulette18 layout – which is similar to a Roulette layout, but smaller – and a special 20-sided dice is rolled in a shaker before being exposed. According to the bets placed and the number rolled, the Dealer then pays winning bets.

### The Double-Hit

For added excitement, there is also a Double-Hit betting section. This bet is based on two consecutive rolls of the dice. The player places a bet on a single number in the Double-Hit section of the layout. If the player hits his number on the first roll, he's paid 12-to-1 and the bet remains in play for a second roll. If the player then hits his number on the second roll, he's paid 120-to-1 and the original bet is returned.

## How To Play Roulette18

As with traditional Roulette, players place their bets on the layout.

After “no more bets,” is announced by the Dealer, the Roulette-die is rolled in a shaker and then exposed.

If the roll results in a double zero (00), all bets remain in play and the dice is rolled again. This step is repeated until a non-00 winning number is determined.

Once the winning number is established, the dealer collects all losing bets and pays out the winning bets according to the pay table.

### Bet Types

Like traditional Roulette, players can place straight-up, split, street, corner or line bets. They may also bet on numbers of one colour, numbers that are odd or even and numbers ‘1-9’ or ‘10-18’, in the allocated spaces.

**Straight-Up Bet** - the player’s chip covers one number on the Roulette table.

**Split Bet** - the player’s chip sits on the line between two adjoining numbers on the Roulette table.

**Street Bet** - the player’s chip sits on the left or right outermost line (edge) of a row of three numbers.

**Corner Bet** - the player’s chip sits at the horizontal and vertical intersection of the lines between the four numbers.

**Line Bet (Six Line)** - the player’s chip sits on two adjoining ‘streets’, with the chip placed at the corresponding intersection; in between where two street bets would be placed.

# Roulette18 Pay Table

| BET TYPE | NUMBERS COVERED | PAYOUT             |
|----------|-----------------|--------------------|
| Straight | 1               | 17-to-1            |
| Split    | 2               | 8-to-1             |
| Street   | 3               | 5-to-1             |
| Corner   | 4               | 7-to-2             |
| Line     | 6               | 2-to1              |
| 1-9      | 9               | Even (lose ½ on 0) |
| 10-18    | 9               | Even (lose ½ on 0) |
| Odd      | 9               | Even (lose ½ on 0) |
| Even     | 9               | Even (lose ½ on 0) |
| Red      | 9               | Even (lose ½ on 0) |
| Black    | 9               | Even (lose ½ on 0) |
